

SFY 2016

OKLAHOMA STATE DEPARTMENT OF HEALTH CHART OF ACCOUNTS

In order to comply with State and Federal rules and regulations, it is necessary to classify and code all documents that enter into the internal accounting system. There are six major elements of coding: (a) Fund (b) Account (c) Sub-Activity Code (d) Object Code (e) CFDA Number, and (f) Receipt Source Code. Each of these codes consists of identifying elements to show a type of fund to be utilized, source of revenue, a specific service area and purpose of expenditure. These codes are constructed as follows:

A. FUND

The fund is composed of seven digits: (1 through 3) is duplicate to first 3 digits of the Office of State Finance (OSF) Class Funding number; (4 and 5) is the source of revenue; (6) is the Federal Fiscal Year; and (7) is the State Fiscal Year.

Duplicate to the OSF Class Funding Number	* _____	↑	III	↑	II	↑	I	↑	I
Source of Revenue	_____				**				
Federal Fiscal Year	_____						**		
State Fiscal Year	_____							**	

B. ACCOUNT

The account number is composed of ten digits: (1 and 2) is the appropriation number; (3 and 4) is the state fiscal year; (5 and 6) is the service area; (7 and 8) is the service chief identifier; and (9 and 10) is the location of the service.

Duplicate to the OSF Appropriation Number (See Table)	* _____	↑	II	↑	II	↑	II	↑	II
State Fiscal Year	_____				*				
Activity Number	_____					*			
Service Chief	_____						**		
Location	_____							**	

C. SUB-ACTIVITY CODE

The sub-activity code will allow OSF to track budget work program data to greater levels of detail. It is composed of five digits (see table).

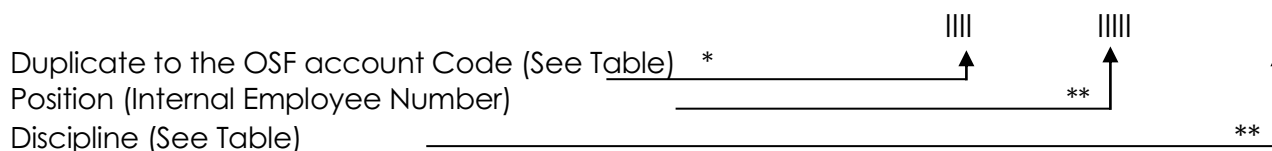

Sub-Activity Code	_____ <div style="display: inline-block; text-align: center; vertical-align: middle;"> II IIII * ↑ </div>
-------------------	---

* Numeric digit only

** Alpha or Numeric digit

D. OBJECT CODE

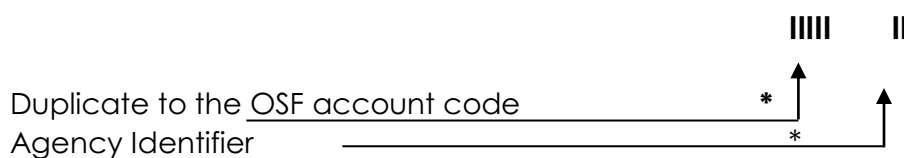

The object code is comprised of 10 digits: (1 through 4) is a duplicate to the (2 through 5) digits of the OSF account; (5 through 9) is the employee position number or object code identifier; and (10) is the discipline code.

**E. CFDA Number**

The CFDA number is composed of 9 digits: (1 through 5) is the Catalog of Federal Domestic Assistance; (6 through 9) is the state optional use code.

**F. RECEIPT SOURCE CODE**

The Receipt Source Code is composed of 7 digits: (1 through 5) is a duplicate of the (2 through 5) digits of the OSF account codes. (6 through 7) is the two-digit agency code number used to further define revenue.

* Numeric digit only

** Alpha or Numeric digit

JOURNAL ENTRY PREFIX CODES

16XXXX	Correcting Journal Entries (0001 - 9999)
26XXXX	Original Entry Journal Entries (0001 - 2999)
NXXXXX	Payroll direct posting

SOURCE OF RECEIPT REFERENCE CODES

REFERENCE NUMBERS: 6 Digits

	State Fiscal Year Activity is for
0	Appropriated

FEDERAL FISCAL YEAR

This will be a one - (1) digit number. It will be the last digit of the calendar year in which any given Federal Grant ends.

Example: If a Federal Grant has a budget period ending September 30, 2014 the one (1) digit number to be entered in this field will be a "4".

If a Federal Grant has a budget period ending March 31, 2015, the one (1) digit number to be entered in this field will be a "5".

NOTE: For Budgets that do not have a Federal Fiscal Year period and are not used for matching to a Federal Grant, use the letter "X".

STATE FISCAL YEAR

This will be a one- (1) digit number. It will be the last digit of the calendar year in which the State Fiscal year ends.

Example: Currently the State Fiscal year ends on June 30, 2015; therefore, the One (1) digit number to be entered in this field will be a "5".

APPROPRIATIONS SUMMARY

<u>SECTION</u>	<u>DESCRIPTION</u>	<u>AMOUNT</u>	<u>FUND/APPROP NO</u>
<u>SB - 2127</u>			
Sec. 62	FQHC Formula	\$60,632,476	195 - 01 (F)

Total FY-15 Appropriations

\$60,632,476

SOURCE OF ACCOUNT TABLE

This will be a six - (6) digit number, which is a duplicate to the Office of State Finance Account Number as follows:

The first two - (2) digits are the appropriation numbers. When used with federal or revolving funds these numbers will be "00". When used with a general revenue fund these numbers will range from 01 to 99.

The second two (2) digits will be the state fiscal year designation for budget or expenditure purposes.

The next two (2) digits represent the Health Department Activity Area. These are:

10	Public Health Infrastructure
20	Prevention & Preparedness Services
50	State Athletic Commission
55	Protective Health Services
75	Community & Family Health Services
85	Health Improvement Services
88	Information Technology Services
91	Public Health Infrastructure Capital Outlay
92	Prevention & Preparedness Service Capital Outlay
95	Protective Health Services Capital Outlay
97	Community & Family Health Services Capital Outlay

<u>TYPE OF FUND</u>	<u>FUND NUMBER</u>	<u>ACCOUNT NUMBER *</u>
Appropriated Dollars	196	XX1610
Revolving Funds	2XX	001675
Federal Funds	340	001675
Federal Funds	400	001655
Federal Funds	490	001610

*These are representative of account numbers that are utilized in digits 1 through 6 of the account number.

INSTRUCTIONS FOR THE SERVICE/LOCATION TABLE

Digits seven, eight, nine and ten (7, 8, 9 and 10) of the account number are there for the purpose of identifying Service Areas, Service Area Projects, and the location of the project.

The service/location identifiers will be found on the following pages. To develop the identifiers for all areas except the County Health Departments follow the steps outlined below:

1. Consult the Accounting Cost Center Table for your Service Area identifier. This alpha identifier is the first digit of the service/location digits (or the 7th digit of the whole account number).

For Example: Disease & Prevention Services is Service Chief "P".

2. After finding the proper Service Area identifier turn to the page that displays the Service Area name and identifier on the upper right side of the page.
3. The second digit of the service/location identifier (or the 8th digit of the whole account number) and the name of the Service projects are listed in two columns to the left of the page. Select the identifier for the project you desire.

For Example: "K" Sexually Transmitted Disease

4. The third and fourth digit of the service/location identifier (or the 9th and 10th digit of the whole account number) and the location title are in the two columns opposite the Service Project title. Select the identifier for the location.

For Example: "0A" Central Office.
Or "97" Shared Services

The Service/Location identifier (or digits) for our example is as follows:

DISEASE & PREVENTION SERVICES

SEXUALLY TRANSMITTED DISEASE

CENTRAL OFFICE

P

K

0A or 97

These would appear in the account number as follows:

001620 PK 0A

For Community Health Services:

1. The first digit of the service/location identifier (the 7th digit of the account number) is derived from the first page of the Accounting Cost Center Table.

For Example: Community Health Services is "W".
2. After finding the proper Service Area identifier turn to the page that displays the Service Area name and identifier on the upper right side of the page.
3. The second digit of the service/location identifier (the 8th digit of the account number) is the project identification number. Specific divisions and/or projects will have an alpha designation; regular county health department budgets will use a zero.
4. The third and fourth digits of the service/location identifier (the 9th and 10th digits of the account number) are listed in two columns on the left side of the page. These two digits identify the location of the county health department.

For Example: "56" Okmulgee County Health Department.

The Service/Location identifier (or digits) for our example is as follows:

<u>COMMUNITY HEALTH SERVICES</u>	<u>PROJECT</u>	<u>COMANCHE COUNTY HEALTH DEPT.</u>
W	0	56

These would appear in the whole account number as follows:

011675 W0 56

Service Area should use the designated county location codes to identify expenditures for a specific County Health Department. To do so, requires a separate budget because the location is part of the basic account number. For example, if Maternal and Infant Health wishes to support the Okmulgee County Health Department for expenditures associated with the Family Planning project the Service/Location identifier (or digits) would be as follows:

<u>MATERNAL AND INFANT HEALTH</u>	<u>FAMILY PLANNING</u>	<u>OKMULGEE COUNTY HEALTH DEPT.</u>
T	S	56

These would appear in the whole account number as follows:

001675 TS 56
